How to add content item as a navigation:

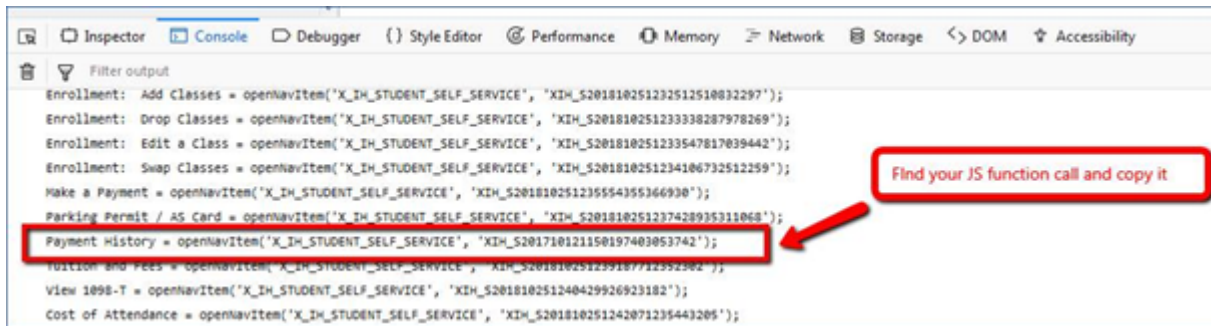

How to use the CMS to create a link to a local CREF

(2019-02-20: Provided by Ryan Block via email)

1. Go to the page that has the link you want to point to (ie. Student Dashboard).
2. Open up Fire Bug or you can use chrome and click on Inspect and go to the console tab.
3. Right click on the side navigation menu
4. Enter the JS function `getNavColltemNames();` and hit enter

5. Look at the console results and find the link you are interested in and copy it to your clipboard

6. Find the CMS URL you want to edit, or add a new one.

7. Paste the JS function in the URLID field with "javascript:" in front of the function name.
